## CANADIAN JUDGES

### FAILED TO OBEY THE LAW

Recent Legislation may be Amended  
Placing Penalty on the Offenders

Ottawa, Oct. 3.—At the last session of Parliament, legislation was passed providing that judges should not be either managers or directors of companies or corporations. There was no intention of preventing judges holding stock or making investments in companies, the object being to prevent them from being actively engaged in their management. No penalty was attached to the legislation for non-fulfilment of the terms of the act. It was left to the honor of Judges who were managers or directors of concerns to resign. Some of them however, have not done so, and there is a likelihood that the act will be amended compelling them to do so.

### THE HEADS STILL FALL

Fort William, Ont., Oct. 3.—Magistrate Young, of Rat Portage, has been dismissed by the Ontario Government and Andrew Young is appointed in his place.

### WITTE MAY BE CHIEF

St. Petersburg, Oct. 3.—The position of the chief of the new ministerial cabinet the creation of which is called for by the institution of the Imperial duma, was offered to Count Witte by the Emperor.

### SCHOOL LAND SALES

The sale of school lands will take place in the Gariepy hall just west of the Imperial Bank beginning Oct. 18, 1905 at 10 a.m. The sale will continue for four days at least.

### VALUE OF ADVERTISING

(Calgary Eye Opener)  
The harmless little clique in Calgary who get up receptions and balls and luncheons for visiting swells express surprise occasionally that better and more detailed accounts of these functions are not given in the local newspapers. Hang it all, how can the newspaper men know what to write when they are not invited to these affairs? If these committees want the speeches delivered at luncheons to be properly reported, or the ball costumes of the ladies adequately described, they should know enough to extend the usual courtesies to the representatives of the daily papers.

Here is the practical effect of newspaper men being ignored by managers of public functions: The small clique that controlled the Borden festivities in Calgary did not send a single invitation to the press, yet the publicity to be gained on this occasion was the essence of Borden's visit. The editors were not there. Hence no telegrams were sent to the Eastern press. But at Edmonton the press was prominent at the function and the immediate result is seen in a lengthy telegram in the Associated Press, which goes all over the world, heralding the visit of the Minister of Militia, what he said of Edmonton, and his promises for that city. The value of this argument is too obvious to require argument. Yet Calgary lost this splendid opportunity because of the small calibre of the men handling the Borden function.

### WILL SUPPORT DEVEBER

(Raymond Chronicle)  
In this campaign the Chronicle will support Dr. DeVeber.  
We believe that he will be the better man to elect. He has in the past proved himself to be a good member. He has looked after our interests in a way that should secure him solid support from the voters. His position as a Cabinet Minister increases his opportunities of doing good work for the district. His policy is one that will advance the Province, while that of his opponent is one calculated to engender a bitter sectarian fight that will affect us for years to come. In this Parliament we need men of experience in legislation and in this contest we have a tried man and a novice—Dr. DeVeber and Mr. Ives.

## POLITICAL

### LAMONT THE CHOICE

Prince Albert, Sept. 30.—Lamont is the unanimous choice in Prince Albert, and the city hall was packed to the doors at the meeting.

### THE MAN FOR GLEICHEN

(Eye Opener)  
Charles A. Stuart should be able to capture the Gleichen district, in spite of the undoubted popularity of his opponent, Jack Hayes, in that constituency. The best man for the job principle will prevail.  
Mr. Stuart is a man who will not only be an ornament to the new legislature, but he is a man whom the legislature cannot very well do without.

"Charlie" Stuart is a very able man, singularly well fitted for participating in the great task which lies before the legislators of Alberta at the present time. He is now reaching the prime of life, and is a capable business man as well as a student. At the conclusion of a brilliant course at Toronto University, Mr. Stuart lectured in the same famous institution upon Canadian constitutional law, history and classics. He came west six years ago, and has built up a successful law practice. Last year he entered the Calgary city council and has weathered the storms of that extraordinary body with credit to himself and satisfaction to his constituency.

In fact, Mr. Stuart possesses exactly that brand of information which will be so much needed in the new legislature. Finally, he is a man of irreproachable character. The Gleichen constituency may be congratulated on the sound calibre of their coming member.

### PREACHERMAN GET IN THE GAME

Regina Standard: Rev. S. D. Chown, D.D., general secretary of the Moral Reform Committee Methodist church of Canada, will be in the city shortly, and will probably take a hand in the election campaign which is now on.

Mr. Chown is being sent West by the Methodist church, it is understood, to urge upon Western Methodists the desirability and advisability of standing by the resolutions passed by their conference here last spring, and supporting the candidates pledged to support the policy of Provincial Rights.

The following resolution was passed at the Methodist conference held in Moose Jaw in June last:

"Whereas the Provincial Autonomy bill is now before the Parliament of Canada at Ottawa, and that statements have been made in the press and elsewhere that the people of the West have no interest in the said bill, it is the duty of this conference of the Methodist church to express itself in no uncertain way, therefore, be it resolved:

"First, that the principle of provincial government is fundamental and the mainstay of our nation, and we believe that this principle is shattered by the clauses of the present proposed act, and will establish one of the most dangerous precedents, making possible, as it does for all time, the curtailment of the rights of provinces by the federal authorities.

"Second, that we are firmly convinced that the act as at present under consideration as touching the matter of education, is in flagrant violation of the British North American Act, and as such is a serious blow at the very foundation of our constitution;

"Third, that we are confident the Methodist church of this conference is a unit in its opposition to this bill, and in view of this we, on behalf of the whole conference membership, protest in the strongest possible terms against the enactment of the proposed bill as it now stands.

"Fourth, that we express our heartfelt appreciation of the interest manifested in this question by our Eastern Canadian friends, who are loyally helping us to oppose this indefensible interference and damaging curtailment of our rights."

## COMMERCIAL MEN

### WILL BE TAXED BY B. C.

Merchants of Jamaica Want a Change in the Canadian Tariff Regulations

Ottawa, Oct. 3.—The Dominion Government has decided not to interfere with British Columbia legislation putting a tax of \$50 on commercial travellers. The Minister of Justice has decided that it is within the competence of the legislature to do this. Quebec has a somewhat similar tax, but the Government has not yet disposed of the Quebec statute.

Justice McLaren will likely be promoted from the Ontario High Court to the Supreme Court in place of Justice Nesbitt, who has resigned and handed in his judgments to the Chief Justice.

The merchants of Jamaica have decided to send a delegate to appear before the tariff commission in regard to the duty on sugar. The island is not getting any advantage from the Canadian preference. The Canadian manufacturers get it all.

### OPTIONS FOR C. P. R. LINE

It is reported that the C. P. R. are again securing options for the entrance of their line into the city. The options secured some time since by them for a right of way north from the proposed site of the high level bridge, have lapsed, and agents of the company are understood to be again endeavoring to secure these.

### LIBERAL CANDIDATE FOR ROSEBUD

Dr. Clark, the Liberal candidate in Oids, was born in Northumberland, England, in 1861. He was educated in Elmfield College, York, where he won the gold medal for languages and secured the scholarship awarded annually to the first pupil in the school.

He studied medicine at Edinburgh University, graduating in 1883.

He has been engaged from student days in public life.

He supported Sir Edward Grey in his first contests in Northumberland, the riding that gentleman still represents in the British House of Commons.

Subsequently for years he was a leading platform supporter of the Rt. Hon. John Morley in Newcastle-on-Tyne. For some years he was a member of the school board in Newcastle-on-Tyne.

He was elected in the poll among 32 candidates. He came to Canada nearly four years ago and has engaged in farming and ranching. He has espoused the Liberal cause in politics and assisted Dr. Stuart in the last Dominion contest.

## ONE THING LACKING

One thing is lacking to give to the campaign to which Mr. Bennett and a section of the Alberta Conservatives have set themselves the status of an agitation. In the only address when he has as yet delivered in this portion of the province the Conservative leader took pains to make clear that leaving all else, he would employ himself in an endeavor to create among the people of Alberta a sentiment of hostility toward both Federal and Provincial governments. He conjured his hearers by the memories of agitators, reformers and rebels to be agitated and beneath the clever wording of his mild-mannered speech alone appeals which the knowing were supposed to understand, but for the consequences of which Mr. Bennett did not care to assume responsibility. The language of the leader in the platform and in the press—except that the language of the latter is more fervent and less cautious. Stripped of subterfuge and reduced to a common basis, therefore, the policy of Mr. Bennett and his friends, as revealed by the progress of the campaign, is simply to defeat the Provincial government and embarrass the Federal mind.

It is within the range of reasonable expectation that Alberta Conservatives should seek both these objects but it is also within the bounds of reasonable expectation that in doing so they should produce some just reason for the course they pursue—should name the evil for the removal of which they undertake to arouse the electorate. Mr. Bennett was quite right in citing Howard Wilberforce, Papineau and Mackenzie among the prominent agitators of history, but what he did not say was that each of these had an evil to remedy and a way to remedy it. Mr. Bennett and his followers have neither; their policy originates in party need and is designed simply to produce party success, regardless alike of reason, means and consequences.

The alleged reason for the agitation is the school system and land clauses of the autonomy bill. But the agitators have not announced a claim that the school system continued by the school clause is an evil, have not expressed an intention or desire to abolish or alter that system in any way.

Do the Alberta Conservatives consider the school system an evil and a menace for the eradication of which the Province should be plunged in the horrors of religious strife? Or have they any plan to propose financing this Province without the Federal subsidies in lieu of Crown lands?

On neither of these points have the Alberta Conservatives spoken. Yet these are the crucial points in the issue they are endeavoring to create and until they do so their campaign will never rise to the dignity of an agitation, but will continue a senseless ferment undertaken for the trivial purpose of defeating the Provincial government, creating hostility to the Federal administration and placing the C. P. R. solicitor and his friends in power.

## CALDERAT MAPLE CREEK

Maple Creek, Sask. 27.—At a convention of Liberal delegates from all parts of the constituency of Maple Creek, which met here on Monday, Mr. John Dixon, one of the prominent merchants of this town and an old timer, was solicited to contest the riding in the approaching election. Throughout the whole district Mr. Dixon is recognized as a capable business man, who if elected, will ably represent the constituency in the first provincial assembly.

Before the delegates met, Mr. J. A. Calder addressed a public meeting in Abbott's hall. Although this meeting was called only an hour or so previously, the hall was comfortably filled by an attentive audience. Mr.

Calder dealt chiefly with the school issue and explained to the satisfaction of everyone present, the exact nature of the present school system. He declared that the Liberal party is not opposed to any such test case, but that any such case should only be taken when an actual grievance exists, or when it can be shown that the present school system is unsatisfactory to the people of Saskatchewan. He appealed to all good citizens to frown down a sectarian agitation, the only object of which is to further the selfish interests of the Tory party. He also spoke of the necessity for unity and harmony at this juncture in our history. The country is now being developed rapidly, new settlements are being formed, immigration is pouring in and there is a general air of peace and prosperity. If agitators have their way this may all be ended, and as the speaker pointed out, the country may be set back for ten years or more. The private opinion here is that the Scott government should be, and will be, returned to power.

## THE MISSING MAYOR

Nelson, B.C., Sept. 28.—The city council will on Thursday next cut down the salary of John Houston, mayor, to \$1 per mensem. The following facts came out in a resolution which was presented to the council this morning by Ald. Kirkpatrick, who has ever been regarded as the staunchest of all the following of the missing mayor: That Mayor Houston left here early in August last to attend an application made to the provincial council by the West Kootenay Power and Light company to have certain plans approved, the approval of which plans, it was thought would result adversely to the interests of this city's power plant, now in course of erection. That he was given authority by the council to order those expenditures in connection with this matter which he might deem advisable in the city's interests. That he drew his salary for August and September, \$100 a month. That he further drew \$100 for expenses for which he was subsequently to account. That on August 12th he sent a draft for another \$200, which was honored. That he has given no account of these moneys. That he has not been heard from by the council since August 12th. On these facts Ald. Kirkpatrick drafted a resolution which was unanimously carried, that \$300 be set to the private account of John Houston and gave notice that at a special meeting of the council to be held on this date next week another resolution would be presented, cutting the salary of Mayor Houston to \$1 a month during his absence. The comment on this action in the city is that Houston has practically drawn his salary to the end of his term, excepting two weeks, and the proposed action is much like shutting the stable door after the steed has been stolen.

We have a contented little community of our own, that is not worried by outside conditions. The wholesome, country-town life that we live, tells in the quality of our work.

Every employee in my factory has his whole heart in his work. From the oldest workman, who started with me when I had a small room for a factory, a big hall of enthusiasm and a high idea of quality, down to the lad who just joined us the other day, every one is putting the best that is in him into his work.

Under such conditions it is no wonder that my Pharaoh is the best ten cent smoke on the market. We are all working with the one object—to produce the best cigar possible.

I go to Cuba every year and buy the best tobacco produced. I know that every leaf that comes to my factory is right. My workmen see that every roll they give it will help make it a perfect, even-burning smoke. Its a combination that's hard to beat.

## CHURCH CONTROLLED

Schools Established in the Province of Manitoba in Defiance of Law.

[Winnipeg Free Press]

The Neepawa Press in a recent issue had the following article, which is worth some little attention by the public:

"A school question has developed in the rural municipality of Rosedale, to which we wish to draw the attention of the Provincial Government, and all those advocates and supporters of national schools who have manifested such deep concern over the educational clauses in the Saskatchewan and Alberta constitutions.

"The school district of Fosberry comprises parts of Rosedale and Ochre municipalities, and is situated in the latter. A majority of the residents speak the French language and belong to the Roman Catholic church. The school is nominally 'national' but is conducted quite differently from other schools for which taxes are collected from the ratepayers of Rosedale, and it is not inspected and reported on by the same man that supervises other schools in this district.

"Protestant children attending this Fosberry school have not received the instruction prescribed for national schools, and some of them have been required to travel a greater distance to attend Canadaville school in order to secure the education for which their parents had to pay. The gentleman who inspects Fosberry school and demands taxes from the Rosedale ratepayers to support it is named Roger Goulet, of St. Boniface. The regular school inspector for this part of the province is T. M. Maguire.

"Where Fosberry school differs most from other schools to the maintenance of which Rosedale ratepayers contribute, is in the matter of expense. The average annual cost of schools in Rosedale is about \$600; the amount asked by Inspector Goulet for Fosberry school this year is \$1,557. The sum required from Rosedale ratepayers, whose total assessments are \$3,600, is \$24.88, of which \$81.66 is rated as a general school tax and \$183.22 as a special school tax.

"Now, it so happens that before Inspector Goulet, of St. Boniface, made his demands on Rosedale municipality for this \$24.88 the council had levied rates for the year. The general school rate is 7 1/2 mills, which, after allowing the 10 per cent. discount for prompt payment, will bring in \$24.30; but as Mr. Goulet asks for \$24.88 the balance, \$57.58 must be paid over out of the general funds of the municipality. Rosedale council has levied a rate of sixty mills on the dollar as a special school tax in Fosberry district to raise the \$183.22.

"What makes the situation more aggravating is the manner in which Fosberry school district was organized. It was not done by petition, but by some hocus-pocus proceedings which were subsequently 'legalized' by the provincial government in the year 1900 or 1901. At any rate the first thing the Rosedale ratepayers know of their predicament was when a bailiff appeared in 1901 and seized their goods and chattels to compel payment of the moneys required by the school board.

"This condition of things is an unbearable imposition on the Rosedale ratepayers included in Fosberry school district. Their total taxation for this year is ninety-one and three-tenths mills on the dollar—we might say ten per cent—on the assessed value of their property. They cannot stand such taxation and redress must come. They must be liberated from Fosberry school district else they must abandon their places and go where no such ruinous taxation can be imposed.

"That such imposition, robbery, persecution, or whatever it may be called, can be carried out by process of law in this country, is a shame and disgrace to the government upon whom the responsibility rests."

The charges which are made specifically by the Press are that this school, though nominally national, is in reality a church school; that it is not controlled along the lines which control other public schools; and that it is subject to special inspection by a special inspector. As no such thing is happening everywhere in this province we have no doubt the statement of the Press is absolutely correct.

A comparison of what is thus happening in this Province with its national system and what would happen

If this particular school district were in Saskatchewan with its 'separate school' law, will be enlightening.

The population of Fosberry school district is made up principally of Catholics. They, by virtue of their superiority in numbers, elect trustees of their own faith. The trustees in turn engage a teacher. The Neepawa Press gives us no information about the teacher, but it is safe to assume that either he or she is a graduate of St. Boniface training school, over which Archbishop Langvin exercises a paternal supervision. Fosberry school district is located in Inspector Maguire's inspectorate, but he is not permitted to inspect the school. That duty is discharged by Inspector Goulet, with headquarters at St. Boniface.

If Fosberry school district were in Saskatchewan, things would be very different. The trustees would remain Catholic, of course. They would engage a Catholic teacher, as is quite proper in view of the religious complexion of the scholars. But this teacher would be certified from the same Normal School that gives professional training to all the other teachers, Protestant and Catholic. And the inspection of the school would be made by the inspector in whose district it was located. In this case Inspector Maguire would inspect the school and see that it conformed to the standards of other neighboring schools. Further the text-books would be identical with those used in the other schools in the inspectorate. And in addition the Protestant ratepayers of the district, if they objected to the way the school was run, could have a school of their own, to which they could pay their taxes. The contrast is striking enough to justify being put in a form where it can be seen at a glance.

Minority Protestant ratepayers empowered by law to establish a school to which they will not send their children.  
Which is the more truly "national" system? Which ensures the largest amount of control by the State? Which is likely to furnish the better education to the young? Which is best calculated to promote peace and harmony among the various sections of a mixed community? The answer must be unhesitatingly that the Saskatchewan educational system is superior in every respect to that of Manitoba, as administered by the present government. The concern of Mr. Rogers over the "separation" of the new provinces and his fear lest the separate schools which they have in the West, may be imposed upon this province by reason of the machinations of Sir Wilfrid Laurier appear highly comical to all who are informed as to the actual educational conditions which exist in Manitoba. There is not a "separate school" in the sense in which this term is used by the ultra-Protestants of Ontario, in the wide expanse of the two new provinces, and no possibility of the establishment of one under the law; while here in Manitoba there are scores of "church" schools masquerading as national schools.

J. Mellon, proprietor of the Royal hotel proposes moving this week into his new house.

Joseph Rogers, County Councillor of North York, Ont., is at the Royal having come in last night from the south. He is delighted with his trip and agreeably surprised to find such a bright genial climate and so many evidences of wealth and progress.

An immediate effect of the laying down of the sewer pipes here is that many wells have gone dry and the result is that many now find themselves forced to "tongue" for the needed fluid.

Mr. R. A. Patterson, who for some time has been proprietor of the Alberta hotel, Centre street has lately taken over the Royal hotel, except the bar.

The Epworth League of the Methodist church, held their monthly concert last night. Mr. Wm. Weeks has charge of the meeting and delivered an able address upon the subject "The Satisfaction of a Well-Spent Life." Upon the roll being called a large number of those present responded to their names in fervid Christian testimony.

Look inside your watch a moment. The balance wheel is making 18,000 vibrations an hour. ## LUMBER MAY GO UP

## Mountain Lumber Manufacturers May Raise the Price

Revelstoke, B.C., Sept. 30—An important meeting of the Mountain Lumber Manufacturers' association was held here today. There was considerable discussion about general conditions, which have been unsatisfactory for some time on account of the high prices of supplies and wages, short supply of labor and the low price of lumber. It was decided to appoint a secretary of the association, who will devote his whole time to its interests, particularly the grading of lumber, and process of manufacture, and J. G. Hillings was appointed secretary pro tem. G. P. Wells, of Fallis, is the man slated for the position. While there is no increase in prices, it is understood the present prices will be strictly maintained, and as a shortage of about 50,000,000 feet in the 1905 production in the mountains has developed, it is expected that prices will materially advance within the next sixty days.

## GRADING THE G. T. P.

Free Press: Mr. Malcolm McMillan, of the McDonald, McMillan Co. has just returned from a business trip to the Doukhobor settlement, where he made a contract with the community to do some of the heaviest work in building the line of the G.T.P. between Portage la Prairie and the Touchwood hills.

The McDonald, McMillan Co. have for some years employed numbers of Doukhobors in their railroad building operations; and have a high opinion of their capacity for work of this kind.

Some members of the community are now quite proficient in railroad work and two of them, Vasil Potopoff and Nicholas Zaboroff, who have in the past worked with the McDonald-McMillan people, have now on behalf of the community entered into a formal contract to build some of the heaviest portions of the road along the Assiniboine and Qu'Appelle rivers. The contract was made in the presence and with the consent of Peter Verigen.

Not much will be done on the contract this fall, but early in the spring the Doukhobors will put at work at least 1,000 men and between 200 and 300 teams. These figures are likely to be exceeded, as it is thought that the Doukhobors may put all their available strength into railroad building, in which case they will be factors of first moment in rushing the G.T.P. to completion.

Mr. McMillan reports the Doukhobor community as thriving in an exceptional degree. They had this year the finest crops he has seen anywhere; half of their grain is threshed and it is of excellent quality. The community owns eighteen traction engines and these have broken a large amount of land in readiness for next season. Mr. McMillan was even more impressed than on previous visits with the immaculate neatness of the Doukhobor villages and the evident signs of contentment and prosperity.

The community continues to display its enterprise in various ways. There was manufactured this season one and a quarter million bricks, mostly for use in the villages. Cement blocks are also being manufactured on a large scale near Yorkton, where the community purchased recently a large sand pit. Preparations are also being made for the establishment of a wholesale warehouse at Yorkton to supply the colonies. The building will be erected and this gone on with in the spring.

Asked for railway news, Mr. McMillan said that 130 miles of the G. T. P. road west of Portage la Prairie is now under sub-contract, and work is being pushed forward with all possible speed. All these contracts will be completed early next summer and the grade will easily reach the Touchwood hills by midsummer.

## For Family Colds

A reliable cough and cold cure should be always in the house ready for use the moment the first symptoms appear. It is always exact, cheaper and better to check a cold in the very beginning. It is safer, too. Shiloh's Consumption Cure, the Lung Tonic, has been tested for thirty-three years, and tens of thousands of homes in Canada and the United States to-day are never without it. A dealer writes: "Shiloh's Consumption Cure is without doubt the best remedy for Coughs and Colds on the market. Once used, my customers will buy no other."—L. Elder, Nanaimo, B.C. If it were anything but the best would this be so? Try it in your own family. If it does not cure, you get back all it cost you. We take all the chances. Neither you nor your dealer can lose. Isn't that fair? 25c. is the price. All dealers in medicine sell.

The C. N. R. grading outfits are at St. Albert. McCrimmon's outfit has the grade almost completed to the Sturgeon river and Gullbeault's outfit is on the north side of the Sturgeon, grading through the Roland property and the Sisters' farm.

The Calgary Herald quotes Mr. Chas. De Wolf Macdonald as saying: "We will have the first C.N.R. rails into Edmonton by Nov. 1. Our freight rates have been cut nearly half already so you can see what it means to us. Edmonton is in mighty fine shape just now, I recently sold three lots at one thousand each, which cost me originally but \$700 for all. Our crops are harvested and the prosperity of the whole north is assured."

Mandy Friar, a domestic, 18 years of age, whose parents live at Stony Plain, has caused the police considerable trouble lately by stealing articles from her employers and others. She was before Magistrate Cowan this morning on a number of charges, and will be sentenced tonight. The police believe she is a kleptomaniac as she apparently steals anything she can lay hands on, whether it can be of use to her or not.

Sales of school lands are advertised to take place in October and November. The sales taking place in the Edmonton district will be held at Edmonton on Wednesday, Oct. 18; Leduc, Monday, October 23; Wetaskiwin, Thursday, October 26; Lacombe, Monday, October 30; Innisfail, Thursday, November 2; Didsbury, Monday, November 6. Albertan: A quiet wedding was celebrated in the Methodist church on Saturday night last at 6 o'clock, when Miss Agnes Georgina Mills, daughter of Dr. Mills, a member of the Canadian Railway commission, was united in marriage to Harry Woodhine Blaylock, barrister at High River, son of Rev. Thos. Blaylock, of Quebec. Rev. G. W. Kerby, who is an old friend of the bride's father, officiated, and the wedding was entirely private. Miss Hugginbotham acted as bridesmaid, and Dr. Gordon Cumming, an old college friend of the bridegroom was best man. The only other guests were Judge and Mrs. Kilham, of Winnipeg,

and Mrs. Hugginbotham. Mr. and Mrs. Blaylock left for their home at High River on the 6:35 p.m. train on Saturday night. Mrs. Blaylock had been accompanying her father during his present trip through the west.

A complete collection of the poems of Mr. Wilfrid Campbell is among the notable publications of this fall. In this volume which will comprise nearly three hundred pages, Mr. Campbell has gathered all of his published and hitherto unpublished verse (even the dramas) that he cares to have preserved. The book will appear early in November, in good time for the Christmas trade. The publisher reports orders already received for some hundreds of copies. The book is bound to enter thousands of Canadian homes, for Mr. Campbell is now known from ocean to ocean as our most distinctively national poet, whose life has been lived and his work wrought wholly in Canada. In his verse, most critics will agree, Canadian poetry has reached its highest expressions, and indeed there are many capable judges who claim for him a place as an equal beside the greatest masters of American poetry. Not only is Mr. Campbell a poet in the highest sense of the term; he is a strong and original thinker, a moralist of the highest ideals, a lofty patriot with a message to his countrymen that stirs the pulses like a bugle-call. No Canadian home library can be complete without a copy of Wilfrid Campbell's poems.

Free Press: The outgoing Canadian Northern trains yesterday were made quite dashing in appearance by the addition of five new coaches. On the Humboldt train were two new first-class coaches and on the Steamship Express one. Altogether ten new coaches have arrived, those not in actual use being side-tracked at the yards. These ten coaches are but a first installment of the sixty ordered for the equipment of the service soon to be instituted in the through line to Edmonton. The equipment consists of first-class coaches, sleepers and diners. Judging from those now here the equipment will be equal to anything on wheels, in Canada at least. The first-class coaches present an unusually attractive exterior. The windows are somewhat after the Pullman style and are ornamented with stained glass. The interior is at once bright, luxurious and attractive. At each end of the car is a long and comfortable settee upholstered in green. On each end wall is a large square bevel-plate mirror. The smoking compartment is finished exactly the same as the main car. The cars were manufactured by Barnes & Smith of Dayton, O.
